# DOC TRANSMITTER

## NEED YOUR DOCS? THEN YOU NEED THE DOC TRANSMITTER

Automate your doc delivery with Ignite's Encompass eFolder FTP. On a scheduled basis, our Doc Transmitter will access the Encompass eFolder and extract any required documents and deliver them to a secure format to your desired location.

The Doc Transmitter can leverage your document naming conventions and even reference conditional statements related to the loan file or document names themselves. It can also manage current document versions and create zip files with a customized naming convention.

**A CLEAN, STREAMLINED DELIVERY IS WITHIN YOUR REACH.**
